

General Information

Our Philosophy

The program at Early Steps Learning is structured to meet the social, physical, emotional, cognitive and therapeutic needs for young children, ages 18 months to 3 years old. We incorporate age-appropriate activities, as well as individual needs within the classroom to provide challenging, safe and healthy experiences for your child.

We believe learning through play is the basis for all activities planned for children. Each child grows at his/her own rate. At Early Steps Learning, the children can explore, share, play and communicate with the people around them.

We strongly encourage parents to participate in classroom activities and field trips. The more the family is involved within the school, the greater your child's level of comfort will be.

Organization

Early Steps Learning is non-profit organization under the supervision of Pediatric Therapy Associates. Pediatric Therapy Associates has been serving the families of this community since 1988. Early Steps Learning is incorporated as a non-profit corporation under Chapter 55A of the General Statutes of North Carolina, entitled "Non-Profit Corporation Act".

Classroom Activities

Early Steps Learning activities are designed to enhance the total development of your child. Our classroom has a daily schedule that allows children to spend one-on-one time with therapists as well as participate in whole group activities that are geared to meet your child's individual goals.

Staff

The Early Steps Learning staff is a group of highly trained specialists in their individual fields. We have a licensed speech-language pathologist, occupational therapist, physical therapist, developmental therapist, and a teacher to meet your child's needs.
